# EUORAILER 120-1

The eurorailer 120-1 is the ideal alternative to ladders and heavy rail mounted vehicles. Its compact and low weight design makes it the most cost effective solution for work on overhead power lines.

## Specifications:

Working height	10,0m
Platform height	8,0m
Working outreach	3,5m
Slew	2x90°
Size (lwxh)	4,00x2,20x1,80m
Weight	1500kg
Platform capacity	120kg
Platform size	0,80x0,70m
Power system	Kubota 482 diesel
Drive speed transport	15 km/hr
Drive speed elevated	3 km/hr
Control system	Full proportional hydraulic controls

Tools	Tooltray working lights
-------	----------------------------

## Safety feature

- Dual controls (platform&base)
- Emergency descent system for chassis and booms
- Lock valves on all hydraulic cylinders
- Overrun brake system with spring handbrake
- HHC-DRS road traffic approved
